The Republican Ticket

CONGRESSIONAL.

First District-CHAS. G. WILLIAMS, of Rock. SENATORIAL.

For State Senator-Seventeenth District-HAMILTON RICHARDSON,

THE RIGHT OF SUFFRAGE IN THE SOUTH.

The political condition of things in the South is such as to disgrace the very name of freedom. Constitutional liberty is ignored. The rights of one class are held at the mercy of another. The ballot, which a Republican-white or blackholds in those States, can not be cast without more or less danger to the voter. It costs something to be a Republican in the South, especially under the administration of President Hayes. It requires no small amount of courage in several of the Southern States for a man to say publicly that he is not a Democrat. It has come to pass in that portion of this enlightened and free country, that the great disappointment to him. His defeat for the political party which protected the Government against the assaults of treason and rebellion, and saved it from destruction, dare not, for fear of violence, put State tickets in the field in South Carolina and Alabams. This is not idle talk nor an attempt to give the condition of things in the South too high a coloring. The best Republicans in South Carolina, men of ability and of character, decided after mature deliberation, that "they deemed it inexpedient to nominate candidates for Governor and other State officers, because, owing to the condition of things in this State occasioned by rifle-club rule, and two years of Democratic supremacy, it is impossible for Republican voters in many counties, without incurring a great personal danger, to organize for a campaign or to vote at the election when held." Very recently, a gentleman now

living at Helens, Arkansas, visited information regarding the political condition of things in that State. He has been clerk of the United States District Court, and also of one of the State Courts, and as a matter of course was brought in contact with the leading men of both parties, which gave him an exceljent opportunity to know something of the political sentiment in that State. He says that at Helena, the Democrats are now organizing three or four rifle clubs, and one artillery company, and it generally known that they propose to use them at general elections. Phillips county, in which Helena is situated, is strongly and yet neither he nor any other Republican there, dare openly defend the Republican party. Their lives and property are immediately put in danger if such a thing is attempted. This is the condition of politics in Arkansas, and it does not ma-Democratic scout Wisconsin

terially differ in other Southern States statements that violence or intimidations are used by the Southern Democrats in carrying the elections. Suppose the official returns of Rock county, of Jefferson, or of Dane, should show that there were only three or four Democratic votes cast in each county, or no votes at all, when the votes should have been two or three thousand in each, what would the Democracy think of Republican fraud or violence Aud yet there are many counties in the South-counties strongly Republican-in not a single Republican vote was cast. Bullock county, Georgia, gave Tilden 1006 votes and not one Repub lican ; Columbia gave 526, none for Hayes. Elbert, 871 Democratic and not a single Republican. Five other counties did not cast one Republican vote, although in 1872 each gave large majorities for General Grant. The vote in Mississippi was even worse than in Georgia, and equally as onesided in Texas, Alabama, North Carolina and other States. The question as to whether the loyal Republicans of the South shall be disfranchised, or shall stand in jeopardy if they attempt to vote anything but a Democratic ticket, is one of the issues of the present campaign. The spirit of the "solid South" is to crush every Republican candidate for Congress, not by the freedom of the ballot, but by rifle clubs, artillery companies, frauds and violence. To defend the right, to protect every man, whether he be white or black, Republican or Democrat, is the work of the Republican party.

THE WESTERN WHEAT CROP. The Daily Commercial Bulletin, of August 15, publishes advice from two hundred and sixty-one counties in eight Western know whereof he writes -- assures the Bal and Southern States, regarding the acre- timore American that the late Mrs. Apwheat crop have been received. The wise provision made by the Legislature for the various crops, insures very reliable re- itable stars and stripes, which had not gone ports of the acreage and the yield of all down during the bombardment, caught the kinds of grain in Wisconsin. In the forty, it appears that there were sown this year, 1,611,782 acres of wheat, against 1,328,742 Iowa and Minnesota, as the largest spring wheat growing State in the Union. Iowa stood first in 1877, producing 42,-159 000 bushels, Minnesota second -37 789. 000. Threshing has so far advanced in all and lows at 40,000,000. The total crop of Rev. J. G. Townsend delivered a lecture of the editors of the News, to whom the by the physicians. A day or two since at l

JANESVILLE GAZETTE.

VOLUME 22

JANESVILLE, WISCONSIN, SATURDAY, AUGUST 17, 1878.

NUMBER 138

1878 in Illinois, Wisconsin, Iowa, Nebraska, Kansas, Missouri Dakota, Colorado and Utah, is placed at 121,950.00, against 128,536,000 in 1877. The average yield in this State is estimated at 111/2 bushels, in Minnesota, 1034 bushels, and in Illinois, 131/2 bushels, and the average yield in the eight States and Territories, is 1214 bushels against 18 in 1877. The quality will also be inferior to that of last year's wheat, but on the whole much better than was supposed two or three weeks ago.

A Milwaukee letter to the Chicago The Tribune is authority for the statement that R. E. Davis, of Middleton, will not accept the nomination for Congress by the Democrats of the Second District, but favors a coalition with the Greenbackers in hopes of carrying the Legislature, in which event he will be a candidate for the United States Senate. Davis has been in the Assembly and the Senate, first as a Republican and then as a Democrat. He Greeleyized in 1872, and has since acted with the Democrats. He ran for Lieutenant-Governor last year, and was confident of an election. The defeat was a sore Senatorship is next in order.

Alexander Mitchell, S. S. Merrill, J. C. Gault, H. C. Atkins, J. W. Cary, and Hans Crocker, have been elected directors of the Portage and Madison Railway, Mr. Merrill being President. The road is now a part of the Chicago, Milwaukee and St. Paul Railway. A dispatch from Madison to the The Reported Death of Miss Evening Wisconsin says it is rumored that the road will be extended at no distant day from Madison to Freeport, thus making an unbroken and nearly an air line from the Glulf of Mexico to Lake Superior. It is also rumored here that the Illinois Central road is looking to a connection with the Wisconsin Central at Portage, an engineer of that company having been at Portage looking the line over.

The Charleston (S. C.) News and Currier, Democratic to the back-bone, say the people of the South have no ill will toward Mr. Tilden. They want him to enjoy to the end of his days, the distinction of being once elected President, but beyond this the Democrats of the South cannot go. They nominated Tilden in 1876 as a neces sity, and they have had enough of him no material to work on. The deaths are now, and want a man of "more backbone. of a purer record, and of a loftier character." This sentiment gives Thurman and Hendricks confidence.

The Madison Democrat says the Democrats in the Third District are in a state of indecision as to what political course to pursue. It then reads its party a lecture, and a good one it is. In speaking of some Republican, the majority being over 2,000 | members of the party, it says "they will prate about the virtue of politics when they wouldn't hesitate a moment to sell all the virtue of a party for the spoils incident to the possession of poundmaster." The Democrat has a forcible way of stating the truth on that question.

There is no abatement of the yellow lever in the South. At Grena la, Mississippi, the most sickening sights are occurring from day to day. Whole familles are swept away in a few hours by the deadly scourge. The town is deserted, as there are hardly able dodied men enough in the town to bury the dead.

The manufacturers of the alleged steam wagon at Oshkosh, intend to memorialize the Legislature next winter in regard to the \$10,000 prize. They want it, and will ask the Legislature to order it paid to them. Any member who votes for such a measure will sign his political death warrant.

A dispatch from South Carolina says "Hampton will be re-elected Governor almost unanimously." "Concillation" having made it dangerous for a Republican to vote in that States of course he will be elected without a contest.

Secretary Sherman is going to Ohio next week to speak on the financial question, when he proposes to make it warm for crossing all day about a mile above the

The report that Miss Medora Clark, the Wisconsin poetess, was killed in Wyoming Territory an Thursday, is doubted in Mil-

Americans can now breathe freely for it has been proved that the flag which Key had under his eye when he wrote "The Star-Spangled Banner" was the veritable boating that had floated so defiantly during the bombardment of Fort McHenry, and not a brand new streamer that had been flung to the breeze by Major Armistead in honor of the birth of his daughter. "Historicus"-and when a man assumes that title he may fairly be presumed to age and the yield of spring wheat for 1878. pleton, owner of the poetic flag was not from which official returns respecting the in her grandmother's mansion, in South Baltimore; and, furthermore, that while there was joy in the house of Armistead over the advent of the child, a new flag the collecting of statistics regarding was not hoisted over the fort, and the vereye and inspired the heart of the poetic Key as he trod the deck of the Minden counties from which reports were received, during that eventful night. After the death of Major Armistead the flag passed into the hands of his widow, Mrs. Louisa Armistead, who died in December, 1861, acres in 1877. Last year the total yield of and who, by her will, left it to her daughwheat in this State is given at 24,138,000 | ter, Mrs. Appleton, as "The Star-Spangled bushels, which places Wisconsin next to Banner which floated over Fort McHenry during the bombardment in 1814," these being the words of the will.

She left here a month or more right. Day before yesterday a thing hapago to visit her sister at Fort Steele, and the scene of the accident as reported is where she might have been at the time.

CLOUD BURST.

The Town of Austin, Nevada, Visited by a Cloud Burst, Doing Damage to the Amount of \$100,000.

Austin, Nev., Aug. 16-Last evening this place was visited by a cloud-burst which flooded the east part of the town, doing damage to the amount of \$100,000. A man named Sparman was swept down the ravine and was drowned. The Reveille office and many business buildings were wrecked. The residence portion of the town escaped.

LOOK OUT FOR THEM!

Spurious Fifty and Twenty-Five Cent Coins in Circulation.

Indianapolis, Ind., Aug. 16.-O. P Rooks, Treasury expert, has discovered considerable quantities of spurious coin in circulation of a dangerous character. The weight is exact with genuine coins, and, until the thin coat of silver, which soon wears off, is broken, the fraud is hard to detect. The denominations are quarter and balf-dollars.

A ROMANTIO STORY.

Return of a Husband After Fifteen Years to Find His Wife Married.

Owego, N. Y., August 13.-This place has a very romantic but entirely true story, which is the general topic of conversation. In 1863 a man named Arthur O'Connor kept a hotel known as the Gate Hill House, three miles north of Owego. He was arrested in that year, tried and convicted for passing counterfeit money, was sentenced to two years

the Auburn State Prisor two ago O'Connor made his appearance who had grown up and married during his despondency. absence fives. Berry, coming home and finding out the situation, went to Hornellsville. He found his wife and asked whether she would go back with him, or intended to go with O'Connor. She decided to return to Owego with Berry. O'Connor left on the next train, taking Boots, with him his son, a young man Shoes, aged 17 years. He is going to South America. He says that after being released from | Cloaks, Auburn Prison he went to St. Louis. There | Pants, he joined a gang of bank robbers. They Leggins, robbed an Illinois bank of \$240,000. O'Conner's share of the spoils was \$25,000. With | Caps, this he fled to Cubs. He was followed, arrested, brought back, and sentenced to ten years in the Joliet Prison. His treasure he secreted in Cuba. On his release in 1876 he went directly back to Cuba and recovered the spoils. With it he went to wealth and position. He came to this Brushes, country atter his family. He had in his possession \$26,000 in cash, \$10.000 of which, it is said, he gave to his wife.

HEAT IN THE NEVADA MINES.

The Sick and Delirious, and the Rough Treatment They Get.

From the Virginia (Nevada) Eaterprise. Those who have not recently explored the lower levels of the leading mines of Comstock can have but a very faint conception of the heat prevailing therein at the present time. The heat is terrible even in the winter ; it is like the breath of a furnace, and in most places where men are obliged to work it is deficient in oxygen, that life-supporting ingredient having been burnt out by the many candles used and in various ways absorbed and exhausted. It can be felt piercing through the little clothing worn, drying the saliva in the mouth and almost shriveling the eyeballs. A temperature of 120 to 130 degrees is so much above blood heat the process of cooking begins in the human frame. tor the floods of perspiration covering the body the flesh would really be cooked to a certain extent. A famous English philsoopher has given an account of his going into an oven hot enough to cook a beefsteak, and remaining there till one lying near him was actually cooked. Had it been the dead instead of the living body of parts of the country on the subject. The erally known. Of late they have been

the philosopher that accompanied the beefsteak it would undoubtedly have been "done to a turn." All that saved the ex perimenter, as he himself says, was the fact that he was constantly in a state of profuse perspiration. A temperature above the natural heat of the body undoubtedly attacks it and causes it to undergo the first stages of cooking. This happens to a miner the moment perspiration ceases to flow from the pores of his skin. The stomach is first affected, then the brain. It is probably through this disorder of and sick ness at the stomach that perspiration is checked. As soon as perspiration ceases to flow the body begins to cook, and first of all, apparently, the brain, as the man at once becomes delirious-as wildly insane as any patient in a lunatic asylum. Cases of this kind occur much more frequently than is supposed or gensolidated Virginia mines. When a miner suddenly begins to rave or talk incoherent-Grant upon this subject when in Parls, and ly his companions "doctor" him. It is that Grant approved of it. Key's friends rough treatment they give him, but it is say the story is the most absurd of inyen- found to be very effective. The man elplace in the vicinity, where he is bound hand and foot and put through a process of rubbing. The friction is applied to the stomach, which is found to be the seat of the trouble, and in which knots nearly of the size of a man's fist are found to have formed. These must be rubbed out, and as soon as they disappear perspiration again starts and the man regains his senses The rubbing is sometimes done with a piece of gunny sack, but as this is of the accidental death of Miss Medora hable to cause useless abrasion of the skin, a pick handle is preferred. To be rubbed down with a pick handle in the hands of a muscular miner is not such treatment as was married to an army officer at Fort greatly desire, nor does the miner, even in ploying no agents, I am enabled to sell work for Steele, Wy., last April, were the authors his delirium, desire it, therefore he is tied in such a way that he cannot resist. The

miners say they can bring a man out all

across the shaft when he suddenly fainted and fell upon his back, lying as securely along the plank as though he had been placed there with the greatest care. It was quite as wonderful, too, that he remained ust as he fell sufficiently long to allow his just as he fell sufficiently long to allow his house, in part payment. This is a rare chance to fellow workmen to reach him and with- get a nice home.

ROYAL WOOD. draw him from his perflous position. Not once in ten thousand times would a man's life be saved when fainting in such a position. The shaft mentioned is so fearfully hot that beside it purgatory would be reck-oned a cooling off station. Although the men who work there are a species of human salamander-like the philosopher who got into the oven along with the beefsteak—still they cannot work but about ten minutes at a time. They then fell back and let others come to the front. In this way of working it is asserted that there are places in the bonanza mines where it is now costing \$16 per day to do the work of one man. The men could do nothing at all but for the liberal supply of ice and icewater allowed them. They swallow icewater by the gallon, and frequently pour the same over each other. In these hot places they use about ninety-five pounds of ice per day to the man. Without ice none of our leading mines could be worked. Men cannot live in the lower levels without an ample supply of ice-water, and even with it they are, as we have seen, almost cooked alive and frequently rendered de-linous—would die indeed were they not promptly taken in hand and "doctored."

A JANESVILLIAN ABROAD.

SPATERY, LINCOLNEHIRE, ENGLAND, JULY, 31st, 1878. Dear Gazette: Having done Scotland, I brought up with town of Newcastle on THROAT.

Type. 'Its a wonderful place; here is still the old Norman wall, built in about 1060; in many places it is as perfect as when first built. There are quite a number of people who live to little houses right inside the wall. Here too, are the remains of the old Castle by Henry II, commenced in 1172, and finished 1177. Originally it covered three acres, now it consists of the old square keep and the block gate, the latter stands a hundred yards or so from the castle, and is inhabited from base to tiles, as thick as a pigeon house. There are many interesting old relics in the rooms of the Antiquarian Society, who occupy what used to be the Governor's rooms. They have quite a respectable library, the the walls of the castle are seventeen feet thick at the base and lessening to 14 feet as you ascend. There is a beautiful well in the third story, as perfect, and good as ever, from which water is drawn and poured into hollow pillars, and off in taps or faucets below. The tower is 98 feet high and 66 feet square, and tolerably well preserved in its original form.

Here is one of the best iron bridges in the world, built by Robert Stephenson twenty years ago. It is of an immense height above the Tyne, high enough for a full rigged ship to pass under. The trains pass over the top at full speed; teams beneath as fast as they please; teams pass each other on the bridge as though on solid ground. I could not feel a vibrationcomparatively speaking - so immensely strong and well-built is this wonderful structure. Here is the house in which the immortal Vice-Admiral Collingwood was born and lived, now a low groggery. Poor Collingwood; poor Nelson; his neverfailing bosom friend.

One of the most interesting works to be found in Europe is here; it is the gun works of Sir William Armstrong. Though one of the most inaccessible places in England. I found influence enough to gain admittance, and with a guide, for two days. carefully examined everything there to be seen; with permission granted, I measured everything that attracted me especially, and said city.—Dated July 29th, 1878.

By the court, AMOS P. PRICHARD. of course this included the 100 ton a monster; what What B day of war; how terrible to contem- CIRCUIT COURT for ROCK COUN- feats of tumbling, the most and elegantly dressed people formers ever seen in any one-establishment on earth. plate; what an invention of man, for the destruction of his fellow man. Length of gun 32 feet, in two sections of beautiful steel 4 inches thick; all through its length in the action, of which a copy is here; then no 3, honer coil, 5½ inches thick; then No. 2, inner coil, 16 inches thick; then No. 3, honer coil, 5½ inches thick; then No. 4 inner coil, 3½ inches thick; being 30 inches of solid metal for resist the explosive power of 440 pounds of powder; and a context shell 4 feet long, diameter 1 inches, and the weight 3,000 pounds. It inches, and the weight 3,000 pounds. It inches shell 4 feet long, diameter 1 inches, and the weight 3,000 pounds. It inches shell 4 feet long, diameter 1 inches, and the weight 3,000 pounds. L v. H. CARPENTER, Gen'l Pass'r Ag'L:

Questered. Lovely species. larger, but not one so poetically lovely as Candlesby Hall, the property and residence of John Hodson, Esq., the brother of Wm. Hodson, Esq, of Janesville, Wisconsin, my esteemed friend. Here is eyerything that taste can devise to make a country paradise; every variety of shrub and flowers, tall cedars with spreading boughs; a lawn like a velvet carpet; at the foot of which is a beautiful circular pond of water and fountains. These with the savoring of enumerable rooks from two rookeries, and the softening landscape in the far distance, the picture seems com-10 00 A M-Going West, mail and passenger for | plete, and here could I ever dwell I think, in peace. Mr. H. farms 800 acres, works 25 horses, and about 35

constant laborers, keeper, grooom, shepherd, &c., &c.; has 25 or more young horses, 50 head of short horn cattle, winters 1,000 sheep, keeps three hunters, which the son, Mr. Tom, can jump over anything (he gave me some fine proofs of jumping capacity). Mr. Hodson, like many others here, enjoys the hunt, in its season. He keeps butchers and blacksmiths of his own. He has now one thousand quarters (8 bushels) of old 2:25 p. m. | wheat now ready for market, worth 44 9:00 a. m. shillings per quarter (about \$11). He 5:00 p. m grows 5 to 6 quarters to the acre of wheat and barley; oats 8 quarters; horse beans farming country of this part of, England.

> Among the tenant farmers are to be found many rich influential men, who farm upon a very large scale. Here, where I country, which produce enormous crops, not quite so good in quality, but far more abundant in quantity. Much of this reclaimed land is Crown property. One of the largest and best farmers in the East Pen, is Samuel Fox Kent, Esq. From Mr. Hodson and Mr. Kent I have obtained valuable information. Mr. Kent has laid me under obligations for the very many kind courtesies he has shown me. He is a true type of the good old English gentleman, and he has given me much statistical and valuable information, for which I am his debtor, and shall ever cherish for him, his sister and mece, the profoundest regard and respect.

Sanford's Radical Curr for Catarrh of every form, and is the most perfect remedy ever devised. It is purely a vegetable distillation, and is applied locally by insuffaction, and constitutionally by internal administration. Locally applied, relief is instantaneous. It soothes, heals, and cleanses the masal passages of every feeling of heaviness, obstruction, dulness, or dizzhness. Constitutionally administered it renovates the blood, purifies it of the acid poison with which it is always charged in Catarrh, stimulates the stomach, liver, and kidneys, perfects digestion, makes new blood, and permits the formation of sound, healthy tissue, and finally obtains complete control over the disease. The remarkable curative powers, when all other remedies utterly fail, of Sanford's Radical, Curr, are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references. It is a great and good medicine, and worthy all confidence. Each package contans a Treatise on Catarrh and Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price \$1.

An Enthusiastic Friend of Sanford's

Radical Cure.

McHatton, Grant & Bowen's Fire and Marine Insurance Agency,
225 Pine Street, St. Louis, Mo., Feb. 7, 1877.)

A. A. Mellier, Washington Av., City.—Dear Mellier: I have for some years been troubled with Catarrh, and for the past two years have suffered seriously with it. Noticing your advertisement of Sanford's Remedy (Radical Cure), I decided to try it. I have used only two bottles, and as a result I feel so much relieved that I presume on our personal relations and write this to you and ask that you take some measures to get it more prominently before the public, that others may have such relief as I have. I have recommended it to quite a number of my friends, all of whom have expressed to metheir high estimate of its value and good effects with them.

I really think it particularly adented to wants of with them.

I really think it particularly adapted to wants of St. Louis people, and they all ought to know of it, and those who need it should try it. I will risk the assertion that 1000 1 oz. vials (as a sample) to be given away will sell as many bottles.

Try some plan. Let the people have it; they need it. I believe I could sell 5000 bottles myself—of course you could largely increase this number. Why not try it? Yours truly, WM. BOWEN.

Sold by all Wholesale and Retail Druggists and Dealers in Medicine throughout the United States and Canades. WEERS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

LAME BACK RHEUMATISM

Messrs. Weeks & Potter: Gentlemen.—One year ago I was seized with a severe attack of Rheumatism in my righthip, to which I was subject. I tried the various liniments and rheumatic cures, but without the least benefit, when my son, a druggist, suggested one of your Collins'Voltaic Plasters. The effect was almost immediately well again, and was able to work upon my farm as usual, whereas, before the application of the Plaster, I could do nothing, and every step gave me pain. A few weeks since, one year from the first attack, the disease returned, but I am happy to say the second Plaster proved as efficacious as the first, and I am now well. My wife wishes me to add that one Plaster has cured her of a very lame back. We think there is nothing in the world of remedies that can compare with the Collins' Voltaio Plasters for Rheumatism and Lame Back, and cheerfully recommend them to the suffering. Yours very respectfully.

Obland, Me., June 6, 1876. ROBERT COTTON.

NOT A QUACK NOSTRUM. Gentlemen,—I hereby certify that for several years past I have used the Voltaio Plasters in my practice, and have never known them to fail in affording speedy relief in those cases for which they are recommended. They are not a quack nostrum, but a remedial agent of great value. Very truly yours.

W. C. COLLINS, M. D. BUCKSPORT, ME., May 27, 1874.

Be careful to obtain Collins' Voltaio Plaster, a combination of Electric and Voltaic Plates, with a highly Medicated Plaster, as seen in the above cut. Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEERS & POTTER, Proprietors, Boston, Mass.

Now a word in regard to wages; some raise the cry that if they are reduced before produced. Deducting the amount still lower they cannot possibly pro- necessary for home consumption and seed, cure the necessaries of life upward of 110,000,000 bushels are left for This is another mistake; 'tis true they will export. In almost all other farm products not be able to induige in so many hixuries there has been nearly a corresponding inas they have been accustomed to, but at crease As agriculture is generally ceded present prices it is possible, by using econto be the foundation of all prosperity, betomy, for a man to live and keep his family ter times surely ought not to be tar off. comfortable on twenty-five cents per day. Indeed we believe the turning point in the Fo illustrate this fact look at some of the long road of depression has been reached, wages in England in the reign of James and that every step will now be in the di-

year; maid servants, £ 2 (\$10) per year; of business. Notwithstanding the dullness mowers, le 2d (29c) per day without of trade, there is an undertone of confi-board, or 6d (12½c) per day with board; dence, with a better feeling in many day without board, or 5d (10c) per day, any great degree of improvements in any with board. Marons, carpenters and quarter, but still an improvement is quite bricklayers received 8d (16c) per day with | geneaally noticeable, and however slight, board. We might go on still further, but it is welcome as an indication of the drift this is enough. The people lived on these wages, prospered and were happy, and activity.—New Nork Shipping List. what has been done can be done again. At the present time twenty to thirty cents per day is considered good wages in some of the Eastern countries, and it will be so here when our nation is as old. When we reach this solid basis, speculation will not be so popular and fortunes will not be made in a day, but by the slow and sure

In regard to men tramping through the country looking for work, I say it is entirely unnecessary and uncalled for, and those that do it are generally of a class that will not work if they get a chance, no matter what are the wages. When a man will work and wants to work, he can generally fied it without traveling through three or four States. Good times will never come to the men who tramp through the country waiting, wishing, longing, praying for something to "turn up." But to him who goes resolutely to work determined to do. as well as possible, a.d make the most out of that which his hand findeth to do is sure to prosper, be happy and contented. Good times will come to every individual just as earns at something his share of prosperity,

The coming era will be hastened more by the sawing of one cord of wood or by medicine. working one acre in corn in the proper spirit than in writing thousands of resolutions and ceesys or in making public speeches until the people are weary of listening. It matters little what a man sets out to do, if he only does it well. He can make money at anything he tries it he only tries hard enough. Let every idle man reflect on thie, and the more he does so he will be convinced that his future lies wholly in his own hands. Don't wait, but make a beginning now, no matter how humble, and the good times will not be far off. Don't compla n of the world, take it always as you find it. Don't fret, despair or waste time in regrets over losses or rough usage, but make the best of what we have. Now, Messrs. Editors, I expect that some one will say that this was written by some one employing laborers, but such is not the case, for I make my living by the strength of my arms, and expect to for some time to

Feeding Horses New Hay and Oats.

Etkport, Iowa.

The question whether horses are injured by being fed on new hay and fresh oats has been made a subject of investigation by a French military commission, who have been experimenting upon cavalry regiments. The results of the experiments prove that the health of the horses was not essentially injured by new hay if they received the ordinary regulation ration along with other fodder. Some animals were at first rather less active and more quiet, they first rather less active and more quiet, they sweated more freely, and the excrements were somewhat softened; but in a short time this ceased. In general, the horses attement the new hay more willingly than the old.

The new hay more willingly than the old. They retained the same strength and corpulence as before. Of one hundred and muy horses from four to thirteen years old, likee it. with which the experiments were instituted, thirty-seven gained in fatness, and eighteen in strength and endurance. Only eighteen lest flesh, and eight lost strength, valle seventy-nine remained unchanged A second series of experiments upon one hundred and fitty horses gave the same resuits. On the other hand a series of experiments was less successful, here seventy four horses from four to thirteen years old, were fed exclusively with new hay, the quantity being increesed until it equaled the regulation ration of old hay, straw and oats together. On this feed there was no real sickness, but a general weakness, fre quent sweats, loss of appetite, digestion dis turbed, diarrhea, relaxation of the muscles, weariness, etc. The decision of the commission was that new hay can replace old bay in the regular rations without injury and perhaps with advantage, but that to feed them exclusively on new hay is injurious to the horses. Experiments were made upon 1,800 horses by feeding them on new oats, and were attended with fayorable results, masmuch as the animals nearly all increased in bulk and strength, from which the commission concluded that new oats can be substituted for old ones with advantage, and hence it is useless to wan two months after the harvest before permitting the use of new oats These experlments relate most positively the prejudice that still prevails in many places against

THE GAZETTE. horses to which new hay is given are frequently exposed to colic. The danger is only present, then, when the horses receive

no definite rations, but have put before them as much as they can cat. In this case REPUBLICAN COUNTY CONVENTION. they also eat much more eagerly and greedthey not only eat much more new hay, but A Republican County Convention will be held fly, which can be so much more injurious, at the Court House, in the City of Janesville, on as experience proves that those very horses the 28th day of August, 1878, at 12 o'clock, noon, which are most inclined to the colic eat

Improved Stock.

As we have passed through the country and noticed the scrub stock, the land sharks, it has been a matter of surprise to us that farmers could be so blind to their own interest as to plot on in the old rut that their fathers trod, instead of keeping City of Janesville, two each. The First ward of up with the times in raising the best stock. the City of Beloit, three. Clinton, Fulton, Un-Take, for instance, the nog: A good ion, Milton, and the Second and Third wards of Berkshire or Poland China pig will make the City of Janesville, four each. The First and as much pork at eight or ten months old Fourth wards of the City of Janesville, five as one of those slab-sided land pikes will in eighteen months, and do it with much less expease otherwise, enabling the owner to realize on his labor so much sooner. This estimate does not take into account the fact that the improved breeds are always worth from one-half to one and onehalf cents a pound more than the common of cattle, sheep and horses. It costs no more, if as much, to raise a short horn steer as to raise a scrub or Texas steer, but when raised and fattened for the market of the present hard times to the President, the difference in value will be found to the government, etc., which is entirely amount to several dollars in favor of the short-horns. And this difference is just as CES. marked through all the stock on the farm, eyen down to the poultry yard. Let us of the war, and now that everything is hope that the time is near at hand when cheap, we can live cheap and can afford to our farmers, as a class, may see the advantage of producing the best of everything the high wages of "war times," when all and then will an era of prosperity dawn on

Remarkable Agricultural Gains. The United States are far in advance of

any other country in point of agriculture, the development of this department of industry having been truly marvelous in late years. Thus the corn crop increased from 768,320,000 bushels in 1867 to 1,340,a single decade. The hog crop which may be said to be a product of the corn crop, reached the enormous total for the year ending with last month of 9,048,565 head, an increase of rising 100 per cent. erence in the prices of the necessaries of during the last ten years. The yield of wheat for the past year was 360,000,000 bushels, or 50,000,000 more than was ever II. Man servants received £5 (\$25) per rection of a healthy and normal condition borers were paid 8d (16c) per branches of business. It is not based on

VEGETINE I will try Vegetine.

He did, AND WAS CURED. DELAWARS, O., Feb. 16, 1877.

Dear Sir,-I wish to give you this testimony Vegetine has done for me. About two years ago a small sore came on my leg; it soon became large Ulcer, so troublesome that I consulted th doctor, but I got no relief, growing worse from day to day. I suffered terribly; I could not rest day or night; I was so reduced my friends thought I would never recover. I consulted a doctor at Columbus I followed his advice; it did no good. I can truly say I was discouraged. At this time I was looking over my newspaper; I saw your advertisement of Vegetine, the "Great Blood Purifier" for cleansing the blood from all impurities. I will try some of the Ve. et.ne. Before I had used the first bottle I began to feel better. I made up my mind I had got the right medicine at last I could now sleep well nights. I continued tak-ing the Vegetine. I took thirteen bottles. My soon as that individual goes to work and lo attend to business. I paid about four hundred dollars for medicine and doctors before I bought the Vegetine. I have recommended Vegetine to others with good success. I always keep a bottle

Very respectfully yours, F. ANTHONI. Mr. Anthoni is one of the ploneers of Delaware, Ohio. He settled here in 1834. He is a wealthy gentleman, of the firm of F Anthoni & Sons. Mr Anthoni is extensively known, especially among the Germans. He is well known in Cincinnati He is respected by all.

IMPURE BLOOD-In morbid conditions of the blood are many diseases; such as salt-rheum, ring worm, boils, carbuncles, sores, ulcers and pimpies. In this condition of the blood try the VBGETINE, and cure these affections. As a blood purifier it has no equal, Its effects are wonder-

BRIEFLETS.

-An August chill. -The steamboats should be inspected. -Time flies, and fly times will soon be past.

-To-morrow is the thirty-third Sunday of 1878. -Tae thermometer is a little down in

the mouth. -The Knights of Pythias have been invited to parade during the fair week.

much activity in building as Janesville. -The saloons show more zeal than the churches. They never close for vaca-

-Elsewhere in this paper will be found an interesting letter from Dr. Horne, who is now visiting merry England.

-Some enterprising fellow could make camping out these chilly nights. -The Janesville Veterans are request-

ed to meet at the Council Chamber this eyening at 8 o'clock, sharp, for the purpose of mustering in.

-William Hagany, the boy who was ar rested some days ago for insulting a little girl, was up again to-day for robbing orchards. The case was adjourned. -Jane Truesdell was to-day found

guilty of poisoning some neighbor's chick ens with paris green mixed with bran. Her excuse was that the chickens bothered her garden. She was fined \$5 and costs. -Last evening Pat Kinney, who drives

Cox's mortar wagon, droye the horse into the river for a drink. The animal tumbled into a hole, and would have gone the way of all drowned horses had not Walter Myers and C. F. Toeplemann tome to Kinney's aid and helped the horse out.

-A man was leisurily driving along Milwaukee street early this morning with a set of wagon-wheels attached to the rear of his buggy. The coupling broke near the Main street crossing, and without noticing his loss, he drove on to the top of the hill where he was informed that he had left his at \$5 an acre to grub it out, and burn it load behind him. He sheepishly turned off. The crops on the broken lands are around and went back after the rest of his train.

Roethinger Jr., drove his beer wagon into the Sante Claire Valley, which is clear of the procession of Templars the other day, all mezquite. There the wheat was yieldand caused a panic among the members of ling about 35 bushels to the acre. There the Supreme Council. Marshal Miles was no down grain. The weather was ex grabbed the horses by the bits, and an- tremely hot, the thermometer ranging from gered the driver so that he drew his whim 110 to 112 degrees, but still there was a and tried to strike Miles. This in substance seems to be the nature of the complaint, and it is possible that steps may be taken to get satisfaction in the courts.

-Fred Bogardus, a young man near Brodhead, is charged with having confilenced Richardson & Brother out of a pair of shoes. He was looking over the stock with a view of making a purchase and finally selected a pair, and asked that he might take them to Wisch's barber shop to show them before completing the | pur-He was allowed to do so but forgot to came back. A warrant was issued charging him with larceny, and an officer has gone out to Brodhead to effect the ar-

-One of the excursionists to this city was hunting around at an early hour yesterday morning for a tidy restaurant. He accosted a clerk as he was just opening up the store, and asked where he could get a eating place, but the stranger replied, "I can't go that place. I don't like the looks of that fellow standing behind the counter." The clerk quietly informed him that he wasn't expected to eat up the fellow behind the counter, and the stranger went his way musing over the fact that he had been taken for a cannibal.

-Tickets for the excursion to Milwauwaukee, August 22, are selling rapidly. The idea that the purchaser can secure a reserved sest for the round trip at only \$1.50, seems to capture the people. There championship base-ball day in Milwaukee Bostons and Mulbetween the and all those who chose will have an opportunity to take a boat-ride on the lake. Other attractions are in store for those who go. It is expected that there will be a "right royal" time, and all who can should improve this opportunity. There will be plenty of time given the ex- 100 miles, there never was such a poor and its leading points of interest.

THE WEATHER.

The thermometer at seven o'clock this morning stood at 62 degrees above, and at two o'clock at 82 degrees above. Cloudy.

The indications to-day are, for the upper lake region and upper Mississippi valley, warmer, partly cloudy weather, occasional rains, variable winds, mostly southerly, stationary or talling barometer.

APPLETON'S JOURNAL.

The September number of this popular monthly hes upon our table. It contains an interesting article concerning the New last year's crop which they are keeping York post-office; an article on Paraguay; for seed. It is selling at \$1.15, but many a number of short sketches and poems, several continued stories, and papers, and spicy notes from the editor's quill. The whole is liberally illustrated making a decidedly attractive and interesting number.

SOCIAL ON THE LAWN.

The Congregational church and society bold a pleasant lawn party, last evening at creased greatly. the residence of Mr. L. B. Cutting. A large number of friends gathered there. The lawn was duly lighted with Chinese lanteres and torches, and the parlors were a'so thrown open for the use of those pres. Emma Josslyn sang solos. The affair was aged from \$1.50 to \$2 per day. Many plause has been enthusiastic and spontaan enjoyable one and resonably profitable tramps were to be seen on the trains and neous. The verdict of every one is after to the society.

CHASING THE HARVEST.

One of Janesville's Citizens Follows the Harvest from Texas to Minnesota.

Facts and Figures Gathered Along the Line.

To start in the South and follow up the harvest as its golden wave sweeps northward seems rather a novel undertaking. and yet it has been successfully carried out by one of Janesyille's citizens, Mr. William Butterfield, who has been thus traveling in the interests of Wood's self-binder. -Few cities in the State are showing so He returned to this city yesterday from concerning what he heard and seen in his chase after the harvest, starting with New Mexico and Texas, and following it up, passing through the Indian Territory, Kansas, Missouri, Iowa, Nebraska, Wisconsin and Minnesota, his business calling him constantly into the activities of the harvest a strike by renting ulsters to those who are field, and keeping him amidst ripened grain from April to August. HIS FIRST POINT WAS TEXAS, and some of the experiences and sights

there were deeply interesting, perhaps because so far distant, and because the habits and customs of that section are less familiar to most of those residing in the north. He reached there at the opening of the harvest early in April, and remained about a month. The acreage is much larger than any previous year. The State is rapidly filling up, there being many old German there to settle. What is known "mezquite" timber land is being rapidly cleared up. It is covered thickly with this timber, which resembles the willow somewhat, with roots like the grub oak. Then there are the prickly pears, and a heavy growth of underbrush and grass, making an entanglement which renders it impossible for one to see anything ten feet away. The country is what is known as a hog, wallow, being wayy, but not like rolling prairie. It is terribly tiresome to drive over it. This is being cleared up, Mexicans being hired abundant, especially the volunteer oats which thresh out from 90 to 100 bushels -Complaint has been made that John per acre. He was also up through steady gulf breeze, so that one did not feel the heat as greatly as further north. The nights were cool, in fact sometimes chilly. The people are working considerable cotton but not as much as formerly. Cotton raising is a steady, hard work through the season, and when Mr. Butterfield was there it was only bringing eight cents. The cotton this year was good though. There was little fruit, peaches, figs and bonanas being the chief. The potato crop was good, and corn was excellent, and plenty. Harvest hands were scarce and wages were \$3.50 a day. The Mexicans are good at herding cattle and driving, but are almost

KANSAS HARVEST FIELDS. Mr. Butterfield worked his way through the ripened fields of Kansas, starting in at the south about the first of June. The crops were unusually good, and were well good breakfast. The clerk pointed out an secured. It is a winter wheat country, and the yield was as large as any they ever had. There was a much larger acreage than ever before, and the harvest was se-

useless in a harvest field, and the negroes

are employed in cotton fields mostly,

cured with no trouble at all. INTO MISSOURI. The rivers were very high, and over-

dowed much of the land, causing great damage in some parts. Some wheat fields were so covered with water that the grain could not be gathered, and some corn fields were likewise submerged. Ontside from these lands the crops were excellent.

IN NEBRASHA The crops were found to be on a grade with Missouri, and were sufficient to cheer the hearts of the farmers.

PASSING INTO IOWA

One finds in the southern part plenty of good winter wheat, up to fifty or sixty miles north of the southern State line. In the northern part however the crop is very poor. Around St. Charles, for a radius of cursionists in which to see the Cream City | crop. Beyond that there are fine crops. Last year in Floyd county of which St. Charles is the seat, there was a large yield some pieces going 40 bushels to the acre of wheat weighing 60 pounds to the bushel. It looked this year as it it would be great yield too, but a few One year age to-day at corresponding hours hot days did the mischief, the thermometer stood at 63 and 85 degrees It was literally burned and rotted, some pieces being jet black, and much of it could not be harvested. Some that was threshed yielded straw so brittle and crumbling that it came out of the machine like dust and was carried away on the winds, leaving no straw around the thresher. Corn was excellent, and oats fair, but down badly. The tarmers, however, did not feel blue. Some have considerable of

> are holding it for a higher price. IN MINNESOTA. The southern part of this state was only fair, and some pretty light. Going up into the state he found the crops good.

AS A WHOLE it looks as if there never had been as great a vield as this year, and the acreage has in-

HARVEST HELP. In the South wages were about \$3.50 a day, and hands scarce. There were no tramps to be seen until Missouri was reached. There wages were about \$2. In eat. In the lawn were spread tables at which I owa \$2.50 was paid in the hurrying part were served ice-cream, lemonade, cake &c., of the season. There were plenty of tramps and in spite of the fact that it was too chilly but in places where there would be fifty of an evening for the highest enjoyment of these hanging around, hardly one could be iced food, yet there was a liberal patron- found who was willing to work. They did have an extraordinary firm grip on the age. Music was provided also. A male not even pretend that they were seeking public, and its success this season bids tair quartet consisting of Messrs. Bladen, Win work. In Cresco, the town was overrun attendance was unprecedented. Since the gate, Collins and Bischoff, sang several with tramps, and yet none would work, cpening night the house, which has a seatpleces. Little Maggie Jones sang "Little though \$3 a day was offered. In Minne- ing capacity larger than any place in the Bo-peep." Miss Ella Peterson and Miss sota help was plentier, and wages aver-

were keeping out of the way. Mr. Butterfield thought there were not so many tramps to be seen as last year.

SUEING FOR LOVE LETTERS. A rather novel suit was commenced before a Janesville Justice of the Peace the other day, which is worthy of mention, inasmuch as it is the first of its kind ever commenced in this city. It appears that one of Janesville's young men, who has been away from here for some months. kept up during his absence steady and sugary correspondence with one of Janesville's young ladies to whom he had pledged his love and life. For some reason the engagement was broken Minnesota and to-day gave us some tacts off a short time ago. He wrote here expressing a desire that each should send back letters tripkets received the other. She responded on the blank promised, it is said, to return his letters as

soon as she had received those she had written. He accordingly bundled the letters up and shipped them to her, but she refused to reciprocate. Since then he has returned to this city, and after demanding the letters, and they being refused him, he commenced a repleyin suit to recover possession of ninety love letters. She appeared accordingly in court in company with her mother and a lawyer, and proposed to stand fight on the matter. The young man not feeling that he had the ready money to squander in law, and finding that the proposed litigation did not frightfarmers from the West, who are going in en the young lady into handing the letters over, gracefully withdrew from the field of contest and left the young lady in tri umphant possession of the tender missives

ANOTHER BURGLARY. Another case of housebreaking has been heard from as occurring on circus day While Mr. E. C. Roof and family were away from their house in the Fourth ward, thieves broke through and stole \$13 in cash and some jewelry. There was some silver-ware in the house but the thieves did not take any of this. The plunderers very carefully locked up the bureau drawers after they had ransacked them, and took good care to lock the doors on leaving, so that the family found the house on their return apparently undis-

SPORTING NOTES.

Yesterday afternoon the third and last came between the Milwaukee Alerts and the Janesville Mutuals was played, and resulted in a defeat of the Janesville boys by

The Buffalos scored 15 yesterday, and the Tecumsehs 10.

O'Leary is making his 400 mile walk in Boston in good time, and will complete it this evening probably. The 291st mile was nade in 9 minutes, the 307th in 9:39, the 314th and 316th in 9:12, and the 325th in

Rarus at Utica yesterday made three tri. als against time making the first mile in 2:15, the second in 2:151/2, and the third in 2:171/2.

GREAT LONDON SHOW. This immense consolidation of Sanger's

Menagerie of trained animals, Dockrill's Superb Parisian Circus, and all the rare features of the great London Show, once so famous throughout the length and breadth of the land, has been playing the quality most brilliant engagement in New York on record. It will exhibit here August 28. Its grand success in the East last summer, and the popularity of its then finished performances are a guarantee of a reputation of its former triumphe during its present tour. The New York Daily Telegraph of March 30 says of it:

"This magnificent exhibition seems to to surpass even that of last fall, when the city, has been literally packed with delighted men, women and children, and the ap-

authorities were getting strict, and tramps | ment, that such an exhibition as that given 107; August 107; September 98% cents; Octoby the Greet London never had its equal ber at 96% cents; and No 3 Milwaukee new 8 on this side of the water. Everything seems | cents. singularly neat. The acts follow each other in the ring with entertaining rapidity. The jokes of the Irish and French clowns strike one as refreshingly new; the music by Robinson's band is wondrously well selected, and the entire performance is unique and grand. The visitor fails to discover anything acking in the entire entertainment.

Finest Made.

The superior quality of the materials used, and the perfection of their manufacture, renders Dr. Price's Flavoring Extracts the finest made. They impart such a delicious taste to pastry, etc., and are so wholesome and economical that we cannot but recommend them.

LOCAL MATTERS Ladles and Gents' will always find the nicest and cheapest Box and Staple Stationery in side of the letter thus sent by him, and the city and Sutherland's Bookstore, No 29 Main

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Innan, Station D, Bible House New York Clly. sep17deodw1y

An Undentable Truth.

You deserve to suffer, and if you lead a miser able, unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you,-your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning, will soon show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with ail its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual costiveness, dizziness of the head nervous prostration, low spirits, &c. Its sales now reach every town on the Western Continent and not a Druggist but will tell you of its wonderful cures. You can buy a Sample Bottle for 10 cents. Three doses will relieve you.

dec1deod-weow6m Fever and Ague Cured for 50 Cents.

Dr. Swayne's Fever and Ague Pills, (without calomel or quinine), are a quick and sure cure in every case for ague and fever, intermittent and remittent fever, and all diseases having their origin from Malaria. They are a great tonic and preventive as well as cure of all complaints peculiar to malarious, ma shy and miasmatic districts. They act on the liver, and brace up the system to a vigorous healthy condition. Notwithstanding these pills are sold for one-half the price that other ague cures are sold for, yet we will warrant them as effectual in all cases as any pills or mixture, let the price or compound be what they mey; and being entirely free from all minerals, their other remedies. Sent by mail to any address on receipt of price, (in currency or postage stamps), 50 cents a box, three boxes \$1 25, six boxes \$2 50. Address letters, Dr. Swayne & Son 330 North Sixth St, Philadelphia. jy30deodwly-4

Excessive Heat, And unwholesome diet at this season of the year may speedily carry you to the grave. Parker's Ginger Tonic, by its corrective action on the entire digestive apparatus, will not only unfailingly cure Diarrhea, Dysentery, Cholera, Cholera Infantum, Colic, Cramps, Spasms, etc., but will prevent those dangerous disorders from attacking the system. It may save your life, and should always be kept in the house. This pleasant remedy is unequaled for teething children, nursing mothers. Possessing many additional virtues of other valuable roots, it is far superior to Essences of Ginger, without their constipating effects, and while more invigorating than liquors never intoxicates, nor creates any desire for stimulants. It cures Dyspepsia, and its varied symptoms of Headache, Nervousness, Palpitation of the Heart, Wakefulness, Sour Stomach, Costiveness, Liver Disorders, Furred Tongue, Low Spirits, Neuralgic and Rheumatic Paine, enables you to enjoy the fruits and vegetables of the season without fear, and gives comfort after a hearty meal. Buy a \$1.00 bottle of your druggist, A. J. Roberts, or a sample bottle at 15 cents, and test ts extraordinary merits. jy2daweowtsep30

Itching Piles.

The symptoms are moisture, like perspiration intense itching, increased by scratching, very distressing, particularly at night as if pin worms were crawling in and about the rectum, the private parts are sometimes affected; if allowed to continue, very serious results may follow. Dr Swayne's All Healing Ointment is a pleasant sur

HOME CURES We were great sufferers from Itching Piles, the symptoms were as above described; the use of Swayne's Ointment in a short time made a perfect cure. J W CHRIST, Boot and Shoe House, 334 N Sec

The picture on the right fairly illustrates one of the many accidents daily happening with common lamps. No family using the ordinary Kerosene lamp is safe against such accidents. The picture on the left shows the different result when the AUTOMATIC SAFETY LAMP is used. No father or mother should risk the lives of their children by using any other. It saves life and prevents accident by fire to person or property Sold by dealers everywhere. Send for circular HARRIS & SMITH, Manufacturers Janesville, Wis.
